Lesson 2- Assignment 02- Deleting Files in Git

Solution

Execute the following steps:

- Create the two files

- Stage them **(git add)** and commit them **(git commit)**

- Delete a.txt from working and stages area **(git rm a.txt)**

- Delete b.txt from stage area but retain in working directory **(git rm –cached b.txt)**

- Display the staged files **(git ls-files –stage)**
